

Product information

Transmission Cleaner

PI 8/14/03/2016

Description

The special cleaner additive package allows all dirt to be dissolved and drained off with the next oil change. Cleaning ensures a long transmission life and soft, easy gear shifting. The cleaner is neutral to metals, plastics and rubber seals.

Properties

- for eliminating shifting problems
- removes undesirable residues
- gentle cleaning
- assures optimum shifting performance
- suitable for manual, hypoid, transaxle and auxiliary transmissions
- guarantees easy gear changing

Technical data

Base	Additiv, Naphthenbasisches Spezialöl / additive, naphtha-base special oil
Viscosity index	204
Viscosity at 40 °C	58,0 mm ² /s
Viscosity at 100 °C	11,8 mm ² /s
Form	flüssig, liquid
Odor	charakteristisch / characteristic
Density at 15 °C	0,885 g/ml

Areas of application

Special cleaner for manual transmissions, power take-off and differential transmissions. Contents of the can sufficient for up to 4 liters of oil.

Application

Add the cleaner before changing the gear oil. If the transmission is full, the 150 ml of old oil must be drained so that the cleaner can be added. Then shift through all gears multiple times on the lifting platform of the warm transmission within approx. 10 minutes. Drain off the old gear oil and fill with the new gear oil in accordance with the manufacturer's specifications.

Available pack sizes

150 ml Can sheet metal	3321
	D-GB-I-E-P
