

Pro-Line Radiator Stop Leak K

Description

Pro-Line Radiator Stop Leak K is a dispersion for sealing leaks in water cooling systems. The product reliably seals hairline cracks and small leaks. Pro-Line Radiator Stop Leak K can also prevent the need for repair work on the cooling system. The solids dispersion is stabilized in a carrier fluid.

Properties

- suitable for aluminum radiators
- compatible with conventional coolant water refiners and antifreezes
- no negative side effects on the water pump or heating circuit
- permanently and reliably seals hairline cracks and small leaks
- for preventive use

Available pack sizes

250 ml Can sheet metal	5178
	D-GB-I-E-P
250 ml Can sheet metal	2294
	D-RUS-UA

Technical data

Form	flüssig / liquid
Color / appearance	weiß / white
Density at 20 °C	1,098 g/cm ³
Viscosity	71 s
Solubility in water	mischbar / mixable
Flash point	104 °C
	DIN EN 22719 Ethandiol

Our information is based on thorough research and may be considered reliable, although not legally binding.

Areas of application

Used for sealing small leaks in water cooling circuits of passenger motor vehicles, commercial vehicles, buses, and industrial applications. Also suited for cooling circuits equipped with water filters.

Application

Shake container before use. Start up the heater. With the engine running, pour the contents into the coolant at operating temperature and allow the engine to continue running for at least a further 10 minutes. Contents will treat up to 40 liters of coolant.
